FREE

My Needs

Computer software:

- that does what I want
- and price is reasonable

My Problem

- most “packaged” software does way more than what I need
- most “packaged” software costs way more than I can afford

What I've Found

- software that costs \$\$\$\$
 - software that's FREE
- and
- free software that I like better than other free software

Types of Software

- PS = Paid Software 
- FS = Free Software 

Types of Software

- CSS = Closed Source Software
 - Code is hidden from view
- OSS = Open Source Software
 - Code is open for viewing

Types of Software

- PCSS = Paid Closed Source Software
 - Proprietary
- POSS = Paid Open Source Software
 - Freeware and maybe Shareware
- FOSS = Free Open Source Software
 - Totally at no cost at all (marked w/***)

FOSS

- Free and Open Source Software
- Closed vs. Open Source Software; how are they different? **Recipes!**
- Open source developers are willing to share the code so that others can help re-write/improve the software (you can also donate to these people as well).

Bottom Line = \$\$\$\$

- Free programs may be missing some features.
- So far I haven't missed them, and you may not either.
- But if something is missing, then you decide if it's worth the total price of the program to have that missing feature.
- Start with the free program, if it doesn't meet your needs, purchase the paid program.

My Areas of Computer Needs

- Operating System
- Tech Trouble/Assisting/Communicating
- Protection (computer management)
- Productivity (file creation)
- Multimedia (audio/video)
- Graphics/Digital Imaging

I'd like to share what I use or would use, and other examples of functional software that's economically enticing.

Operating Systems

- Heart/Brains of it all

Licking County Aging Program
Licking County Computer Society
Computer Teaching Program

Dear ,

We really hope that you enjoyed your first computer class, "Computers For the Total Beginner", with us. Jim Holton said that it was a good class and it seemed that you enjoyed your time with him learning to get to know the computer.

It is now time for the second computer class, "Everyday planning on continuing your classes with us and learning meeting in a couple of weeks and we want you to join us 17-19. The class will meet those Mondays, Tuesdays, at the cost is only \$20 for the 12 hours of instruction. The and review.

We're including the registration form for the class and a class. However, we sometimes take questions from the questions. After reading the description, we hope that you in (or take it in during one of our open times listed on the

Everyday Computer Basics using Windows (Computer

This class (using Windows 10) is the second of our four require you take, or have taken, before you can take any quick review of what was learned in the first class and a the question, "What are the things we do everyday with computer work for me and not me working for the comp

- Mastering the "START MENU" and customiz your computer, adding software, accessing/us computer, and the Windows file system: where to organize your file system to work for you an

Looking forward to seeing your name on our class list.

John Kennedy,
Director of the Computer Teaching Program
Licking County Aging Program, with
Licking County Computer Society

Select a Scan Method ?

✓ Threat Scan

Our most comprehensive scan. It scans all the places malware is known to hide, including Memory, Startup, Registry, and Filesystem Objects. Recommended as your daily scan.

Recommended

Custom Scan

Allows you to scan where and what you want to scan. Modifications include choosing which Objects to scan (Memory, Startup and Registry). Enables you to customize the treatment of Potentially Unwanted Programs (PUPs) and Modifications (PUMs).

Hyper Scan

Quickly checks Memory and Startup Objects for active malware threats. If anything is found, we recommend running a Threat Scan afterward for more comprehensive detection.

Premium Only

Start Scan

SUPERAntiSpyware

Remove spyware, NOT just the easy ones!

Recommended Pre-Scan Actions

- Scan for frequently unwanted programs
- Check for malware database updates
- Close active browser windows
- Delete Windows Temp Files

Scanner Options

- Enable Rescue Scan (Maximum Boost)
- Activate Scan Boost
 - Low Boost
 - High Boost
- Scan Internet browser tracking cookies
- Scan inside ZIP archives
- Only scan recently modified files: 30 days

[Advanced Scan Settings...](#)

Complete Scan

Scan all files on this PC

Quick Scan

Scan common points of infection

Critical Point Scan

Scan for active infections

Custom Scan

Scan user selected system locations

Welcome to

Thunderbird

Add-on of the Week: Dropbox for FileLink

Add Dropbox support to Thunderbird's Filelink feature.

Thunderbird's Filelink feature makes it quick and easy to send large attachments by uploading those attachments to various storage services and then inserting a link to the file into the body of your email.

- CDBurnerXP***
- InfraRecorder***
- cdrtfe**
- ImgBurn**

CDBurnerXP

**Data disc**

Allows you to create ISO images, burn usual data discs, MP3-CDs and video discs.

**Video DVD**

Allows you to create video discs for use with a DVD player.

**Audio disc**

Allows you to create usual audio discs, with or without gaps between the tracks.

**Burn ISO image**

Allows you to burn ISO files to disc.

**Copy or grab disc**

Allows you to copy audio and data discs.

**Erase disc**

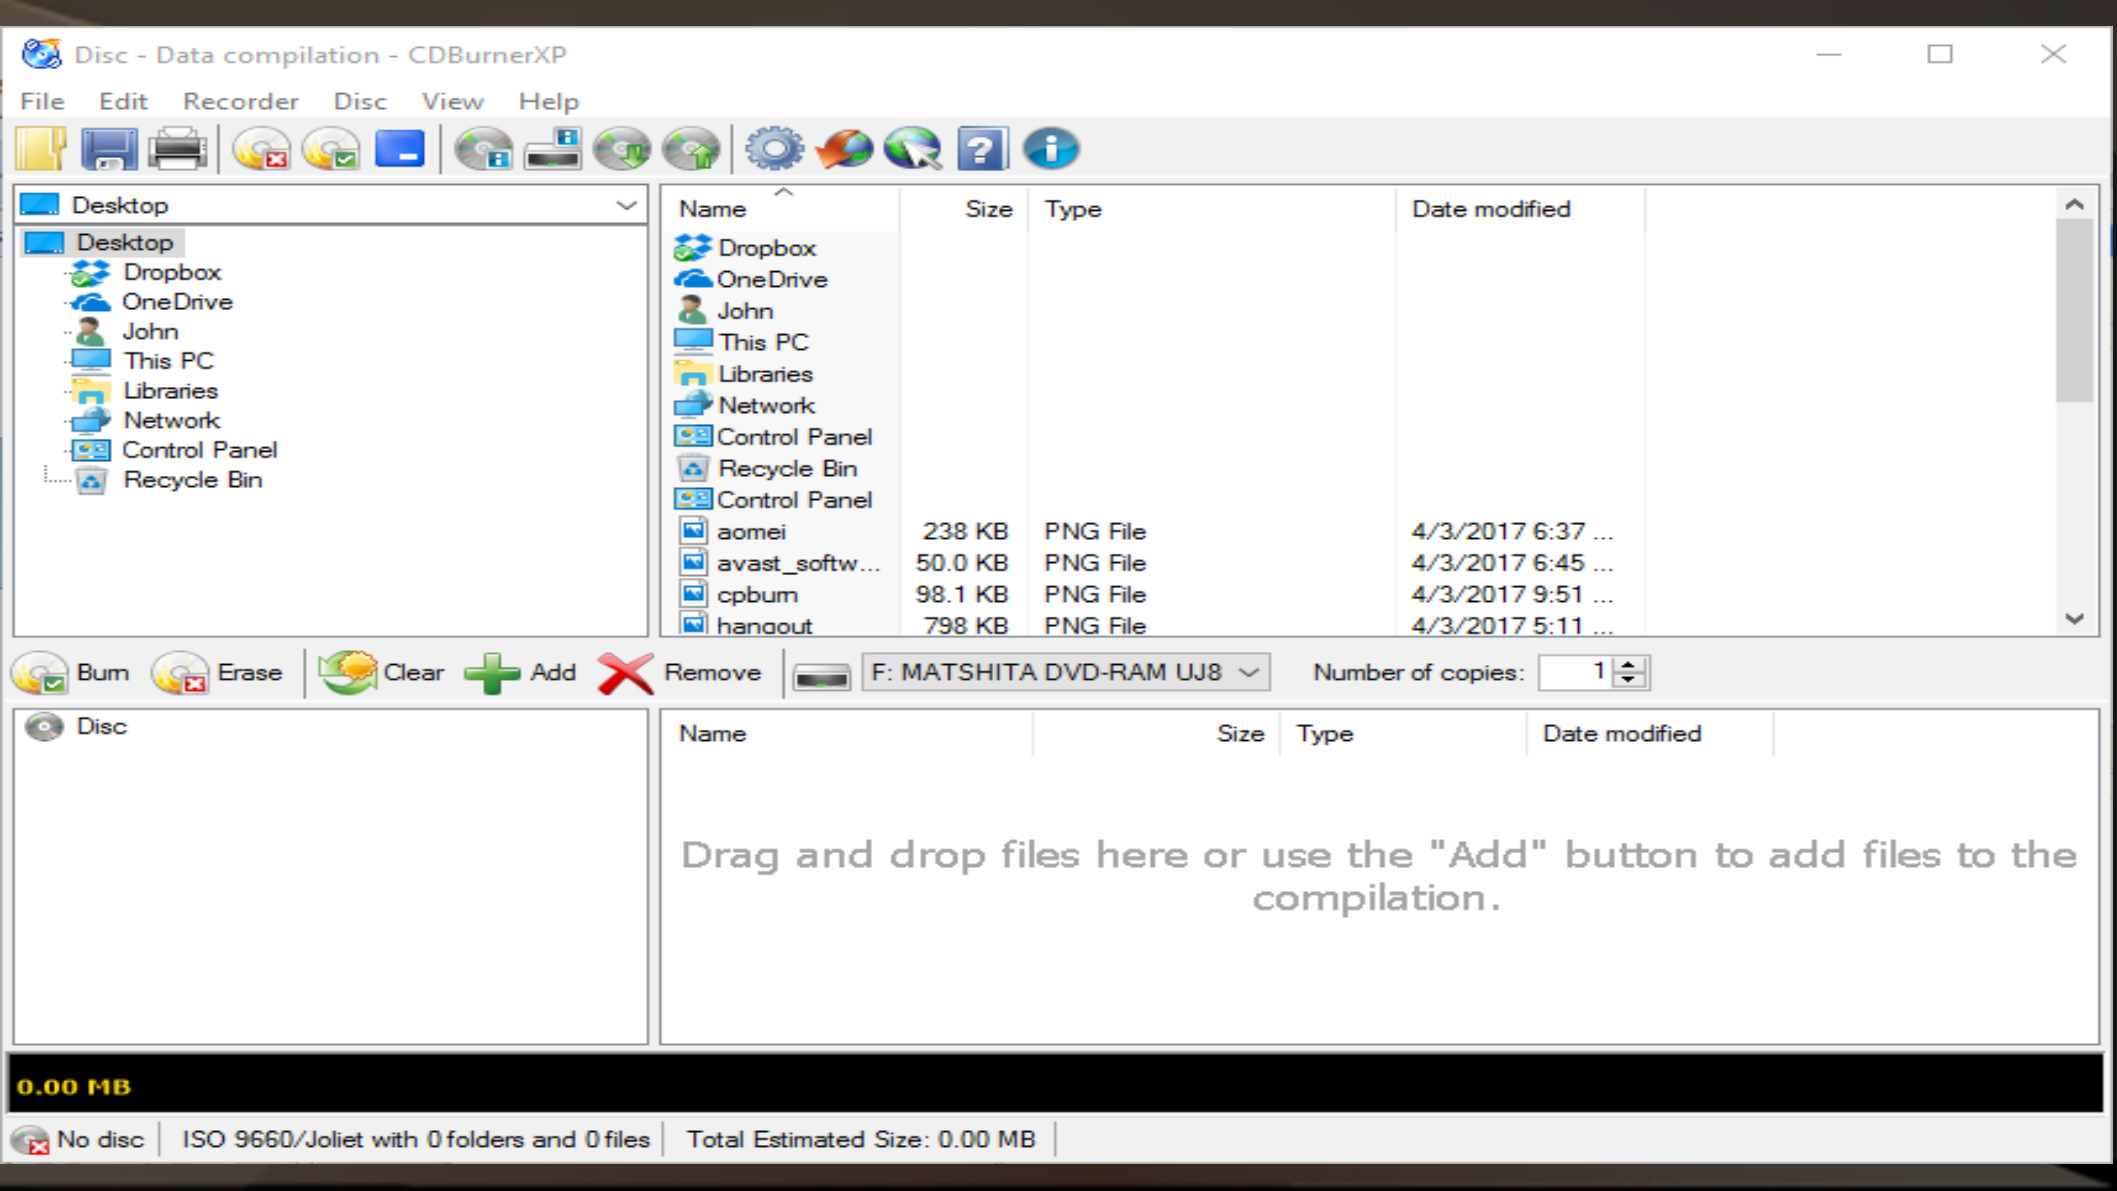

Allows you to remove all contents from a rewritable medium.
